

Going to the Garden

I wanna spend my day
Out in the sun
Hang out with my friends
Having some fun

Excited just to be
Free as a bird
Outside everything is green
Happy is the word

I'm going to the garden
I'm going to the garden
Where work is like play
I wanna stay all day
Havin' fun
Getting the garden work done

We weed and mulch and mow and such
To keep it neat and beautiful
I'm going to the garden
We plant and pick and talk and share
Take the time to show we care
I'm going to the garden

I'm going to the garden
Where work is like play
I wanna stay all day
Havin' fun
Getting the garden work done, yeah

Going to the Garden

I'm going to the garden
I'm going to the garden
Where work is like play
I wanna stay all day
Havin' fun
Getting the garden work done

We weed and mulch and mow and such
To keep it neat and beautiful
I'm going to the garden
We plant and pick and talk and share
Take the time to show we care
I'm going to the garden

I wanna spend my day
Outside with my friends, y'all
In the garden
In the garden
In the garden
