

When You Share

The harvest
Is a special time
The plants know
That it's time to let go
Of the food we have grown together

When we harvest
The Earth is giving life
We take it
For our bodies and minds
To grow another day
So we can spread peace on Earth together

Everything is giving
Everything is taking
Everything is moving round & round
There's enough for everyone
When you share

We give thanks
To our sweet planet Earth
For her abundance
Of everything
And by cherishing her food, her water and air
We are loving ourselves and our brothers and sisters Everywhere
We're all living on the same Earth together
Together
Oh, oh, oh, oh
Together
All living on this same Earth
So let's share
